The silver wave is gaining strength in Ohio and Pennsylvania.

Does anybody in this town accuse Mr. Newsum of being a Democrat?

The Democrats want everything in Alabama. So it will be in November.

It is somewhat funny domestic: this weather they will never hear a kick from us.

It is said that Senator John H. Gordon, of Georgia, has come out in favor of the Chicago ticket.

On a Garfield, hereafter a Republican stronghold, it is said the people are turning for silver.

It is said that Mr. Newsum's long association with Uncle Sam is having its effect in this campaign.

Hos. A. G. Shanklin, one of the most prominent Democrats in this county, said that State will go for Bryan and Sewall.

The "Texas" is moving about 100 cars of corn a day from the West for export. It keeps all their engines and men moving to do it.

Jefferson had the Bryan house to-day. But he overcame them. He is just like Bryan will do. The people are with him.

Purdess Cleveland has never said one word in opposition to the Chicago ticket. Neither has he said anything favorable to an other ticket favorable to sound money.

We are told that the banks throughout the country came to the relief of the treasury lately and furnished enough gold to replenish the gold reserve. Why didn't they issue more bonds?

Dr. Newsum says his party has the money, the intelligence and all the influential people on its side. But there's one thing it lacks and that is the voters. It's the voters that count in this contest.

The neighborhood of Jule's Station, this county, is one of the strongest silver sections in the county. It is said that there are not a dozen gold men in the neighborhood, while those who favor silver number a hundred or more.

The Democratic bolters who are using all their wits to get up another convention seem about to fail. But there's one thing they can't do and that is to get money men oppose the Chicago ticket and those who do not favor another ticket say too strong.

When the Hon. Charles Brannan comes to this county in September to talk about the silver dollar, he will have the largest crowd to hear him that has assembled in the county for some time. Mr. Brannan is an orator, and a fluent public speaker.

"If the silver people win, I believe there will be such a revival in business, such a booming in industries, which are now inactive, and such a general shaking up of commercial interests that the country will be sure to prosper."—Dr. T. DeWitt Talmage.

We print in another column the call of Mr. R. L. Newsum, Chairman of the "McKinley Aid Society." He wants Democrats to meet him at Hardinsburg next Saturday, but there'll not be one silver man. Breckridge Democrats are not made that way.

If you do not take the News yourself, haven't you a friend that you can send it to, anyhow until after the election? The present campaign is one of profound interest to the people, and they should study and vote for such legislation as will be to their best interests.

That was a magnificent Democratic meeting held in Louisville last Saturday night. It was an outpouring of the people such as Louisville never had before. Louisville is a Democratic city and is for free silver and she will give Bryan and Sewall 100,000 majority in November.

The lawyers of Lebanon have passed a resolution imposing a fine of \$1 on any one of their number who braches the subject of the currency question in court-house square. This is the first proposition was made by a lawyer out at Hardinsburg, but it wouldn't take worth a cent.

By what authority does Dr. R. L. Newsum take the name of Democracy and proceed to call out Democrats? The genuine Jeffersonianism, which has long since held their convention and nominated their men and are fighting for their election. Dr. Newsum is a bolter and he can't deceive the people by saying he is a Democrat.

The Secretary of the Treasury has just issued a fifty-four-page pamphlet in which he practically admits that he has had to issue during the last two years \$282,215,400 of government bonds to keep up the gold standard. Do the people of this country want a standard that costs them so much to keep? And this is what they call honest money!

CASTORIA.

The best of all purgatives. It is a natural and safe medicine.

Dr. Ben Harrod, of Constantine, will support Bryan.

Was the silver sentiment taken hold of the people right at the home of the Republican candidate for President have they not reason to be alarmed over the uprising?

It is very easily to be understood that another loud louse would be disastrous to the gold men and their candidate for President. Mr. Newsum is the champion of the Democrats and being a county man he will not lose a single vote. He is so well known that it seems hardly necessary to comment on his fitness for the place. Those who know him, at home as well as abroad, recognize his superior qualifications for the position of a Congressman. The only trouble he has is with the gold men, who support him by constitutional remedies. He has been secured, however, that he will carry five counties in the district and these ought to win him the nomination.

DEFENSE CANNOT BE CURED

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed for ever; which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (cannot be cured) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Shipping to demand a Universal Wage Scale From Shipowners Movement Started in

and, but American Sailors Said to Favor the Idea Heartily.

A wage scale to govern the shipping world of the world has been drawn up by the Seafarers' Union of America, and it will be felt wherever men are sent to the decks of vessels.

The idea, having its origin among the sailors, has steadily spread all over the world, and it is now being taken up by the most ardent supporters of the cause. American seamen are said to be in thorough accord with the movement.

It was the original intention to carry agitation on quietly and to let it spread until it attracted attention, but on developments in London and elsewhere, it was decided to start with a bang that had been held for the purpose of organizing seamen, gave it a more public character.

It seems almost incredible, in view of the wonderful progress of postal routes, that the first postal routes were not much better than the roads of the present day.

But, of course, there had to be some means of communication even in the most primitive times. The first postal routes were established along the roads of the present day.

BRECKENRIDGE NEWS.

WEDNESDAY, AUGUST 12, 1896.

In Memory of C. H. Brasher.

Your life was short, your pleasures brief,
Your heart was right with God and man,
But earth's dark ways were full of sin,
So leave your loved one's path to him.

And though no more you live in this world,
Yet still you live in his love and his care,
A brighter day and hour than this,
In your eternal day.

No tearful soul your griefs will bring,
No pain that comes from your loved one's loss,
For you are free from all to rise,
In heaven's bright and happy abode.

Your friends will miss you very sore,
But they cannot recall you here,
So, in the valley of the shadow of death,
Will they go on and such the tide.

May you ever find your rest,
In that bright, happy place,
Where no sorrow, pain or grief,
Unknown to us, remains by chance.

No sickness there your hours will pass,
To grief and pain you will not pass,
And while you live above the stars,
Your friends will often think of you.

Forever, then, with loved and true,
We live in your dear memory,
We live in your dear memory,
We live in your dear memory.

And while you live above the stars,
Your friends will often think of you,
Forever, then, with loved and true,
We live in your dear memory.

STARCH OF THE POPULISTS

Interesting Statistics That They Hold

The Balance of Power in the

Many States.

WASHINGTON, D. C., July 21.—The Congressional Committee on the Populist movement have been doing some figuring during the past week on the voting strength represented in the Populist Convention.

They have also been estimating the voting strength of the bimetallicists.

In 1892 the popular vote of the country was as follows: For Cleveland, 5,500,000; for Harrison, 5,176,108; for Weaver, 1,045,108.

In the election of 1894 and 1895 the Populists made large strides. In twenty-seven states of the South and West they got 1,102,327; the Democrats 2,040,170; and the Republicans, 1,002,165.

In a number of the Southern States—Alabama, Georgia, North Carolina and Texas, for instance—the Populist vote in the last few elections has been strong.

In 1894 the Populists polled 121,019 in Georgia for Governor, against 121,019 for the Democratic nominee. In Texas the Populists polled the big vote of 103,000.

They received 103,000 in Texas, 82,383 votes for Kelly, while the Democratic candidate received 110,856. The Populist held 103,000 in Georgia, 82,383 in North Carolina, polled 78,000 votes.

The Democrats in the same State polled 127,000 and the Republicans, 100,342. In the Western States, where so much is to be gained by the Democratic, the Populists hold first place in a number of States and are in a position to dictate to the Democrats what they want to do.

do not want. The following table gives the vote of the three parties in fifteen of the Western States in the last election in the States:

Alabama	11,597	51,306	114,149
Colorado	20,040	97,112	38,300
Idaho	7,057	7,121	8,509
Iowa	149,433	32,118	219,765
Kansas	20,709	118,328	10,527
Minnesota	55,579	87,931	122,833
Montana	10,714	10,569	18,851
Nebraska	10,214	70,566	87,227
Nevada	578	5,223	19,131
North Dakota	8,488	8,234	17,119
Oregon	13,900	31,221	35,082
South Dakota	18,750	28,568	34,808
Utah	18,519	2,661	26,853
Washington	24,971	25,149	36,460
Wyoming	4,955	2,176	8,454

ROMANCE OF THE WEST.

Mastered Out With His Gun

When Jack Harris was mastered out

of the army at Fort Leavenworth, Kan.

in 1880, he had \$400 per month in pay. An accident of fate made him a prospector, and he invested the greater part of his money in five or six years.

Afterward picked up a wagon and some harness.

Time he drove to Franklin county, where he traded part of his plunder for 80 acres of land. He kept two mules and a wagon and became a freeman.

One evening after he had unloaded at Ottawa a lot of stuff which he had bought at Kansas City, he was engaged to him that he might get a job of hauling from a young man who had bought a lot and was preparing to put up a store building. He struck the stranger for the work and secured it, hauling loads and lumber for him from Lawrence.

The stranger was a liberal sort of man, and the future candidate for congress was greatly pleased with him. One day he drove to his father's farm and greeted him with a friendly "Hello."

"Hello, I've found a fellow for you!" "Oh, go off, Jack!" the young man said. "I was not talking to you."

At a year afterward he took his friend out to the farm to visit over Sunday. He was met by the young man, who was now a storekeeper, and "Hello!" the young storekeeper said, "Hello!" after awhile made a match of it.

Years rolled by, and the two brothers-in-law, still friends, became brothers-in-law. The following table gives the vote of the three parties in fifteen of the Western States in the last election in the States:

WILD WOMAN CAPTURED.

Travis O'Brien, a Quaker Cattleman, residing in the State of Texas.

Deputy Sheriff Vail and his posse arrived in Wagonhead, Tex., the other evening with a wild woman captured in the swamp near Palmer.

When captured, the woman had on but little clothing and refused to talk. She is giant in stature, and her hands and feet are twice the size of a man's. Her feet are large and are badly scratched from contact with briars and branches.

After the woman had been in jail some time it was suggested that she should be the appearance of a Bohemian, and a Bohemian was sent to the jail to see if she could be induced to talk, but to no avail. Her captors think she has been a member of the Redoubt and settlements in the southeastern portion of the country.

The farmers quit work when the wild woman approached them in company with the officers. Some thought she was a demon, while others were sure it was the devil of the woods, whose presence had been attracting a crowd of curious persons to the jail.

Falling Spring From a Cave's Roof.

One of the greatest curiosities known in Pennsylvania was recently uncovered at Falling Spring. It is a falling spring, where a beautiful stream of clear, cool water falls from the roof of a small cave, instead of falling from beneath, as so many of the other springs.
